

OPALL

The Open Polymer Active Learning Lab

Before entering the Building

1. Put on your cloth face covering

Upon entering the lab

1. Enter without touching the door handle (use wipe, hip, etc.)
2. Wash Hands
3. Wear Eye Protection, should be some on the main door
4. Change to paper surgical mask, near the fume hood, if you are going to use chemicals or other things that could soil your cloth face covering. Use the paper surgical mask for the entire day, if you take it off place in a labeled plastic bag for reuse.
5. Clean working area to be used with alcohol.
6. Use gloves for computer keyboards and shared equipment that can not easily disinfected, the gloves are disposable and should be thrown away when finished working on the equipment

Preparing to leave the lab

1. Disinfect all communal objects after use during time in the lab and return them to their storage location, clean up any clutter
2. Alcohol and Kimwipes are available for wiping down objects
3. Wipe down working surfaces when finished and before next person uses them
4. Wash hands
5. Wipe door handle with Alcohol when leaving for the day
6. Leave without touching door handle
7. Wash mask at home per GaTech guidelines

Your Polymer Playground. Play Safe!
